The Wild West of AI

This professional learning series engages K-12 educators in collaborative exploration of AI literacy concepts essential for student success in an increasingly AI-integrated society.

Session 1: Exploring AI Literacy: What Do Our Students Need to Know

Session 2: Translating Understanding into Practice: Building Student AI Literacy

ELA and AI

This series equips ELA educators with practical strategies to integrate AI tools responsibly while maintaining academic integrity, student voice, and the craft of reading and writing instruction.

Session 1: AI as a Thought Partner, Not a Ghostwriter

Session 2: Making Cheating Irrelevant with Process

AI-Powered MTSS Part 1 & Part 2

This two-part series equips educators with practical tools to make MTSS targeted and meaningful rather than time-consuming.

Part 1-

Session 1: Organizing Your Data Landscape with AI Support

Session 2: AI-Assisted Assessment Design and Implementation

Part 2-

Session 3: From Data to Instruction: AI-Enhanced Strategic Planning

Session 4: Smart Progress Monitoring with AI
